30/07 – 03/08 08am – 4pm	Matsepe Primary School – <i>Ga-Matsepe Village</i> Tafelkop, Elias Motsoaledi Local Municipality Rural Limpopo, South Africa GPS: 25° 1' 47.723" S, 29° 30' 32.62" E.	Introducing the New and improved STEM Scientific Calculator. Equipping learners, teachers and the public with the optimal calculator usage skills for various assessments, it allows them to align what they have been taught in the content of the subject throughout the year with the functions of the calculator.	Teachers (GET and FET). Learners (GET and FET). Interested General Public. Any Stakeholder.	Makgokolosa 072 554 4450 makgokolosa@redpencilgroup.co.za	No Booking Required – Everyone is Invited!!

Mobile Science Kits incorporate practical and theoretical resources that will allow teachers and learners to effectively overcome the barriers that restrict their practical development in their learning and teaching disciplines by being able to effectively conduct experiments as required in the curriculum.</p>	<p>Teachers (GET and FET). Learners (GET and FET). Interested General Public. Any Stakeholder.</p>	<p>Makgokolosa 072 554 4450 makgokolosa@redpencilgroup.co.za</p>	<p>No Booking Required – Everyone is Invited!!</p>

Learners and teachers need tools that help them explore, create, solve problems, consider, think, listen and view critically, make decisions, observe, document, research, investigate ideas, demonstrate learning, take turns, and learn with and from one another.</p>	<p>Teachers (GET and FET). Learners (GET and FET). Interested General Public. Any Stakeholder.</p>	<p>Makgokolosa 072 554 4450 makgokolosa@redpencilgroup.co.za</p>	<p>No Booking Required – Everyone is Invited!!</p>

Anatomy is the study of the structures associated with the human body. The human body is often thought of as a complicated machine. In order for the machine to work, it must have all of its parts, but in addition each of these parts must function optimally. If organs or organ systems are not functioning properly, then the patient is described as</p>	<p>Teachers (GET and FET). Learners (GET and FET). Interested General Public. Germination is the process by which an organism grows from a seed or similar structure. The most common example of germination is the sprouting of a seedling from a seed of an angiosperm or gymnosperm. Coming from the Rural Region where ploughing for subsistence is a general knowledge. Learners, Teachers and the General Public will witness first-hand how it feel to successfully germinate a seed for FUN!!</p>	<p>Teachers (GET and FET). Learners (GET and FET).
